

Senior Tips

Tip #1 - Get into it

The best way to great pictures is to show your attitude. If you're excited, it shows up in every shot. **Attitude makes a huge difference.**

Tip #2 - Be Yourself

While I will help with posing, don't be afraid to try something different. Not every picture needs to be a big smile; they should reflect several aspects of you.

When asked to sit for a pose, sit naturally, the same as you would anywhere else.

Make yourself comfortable and it's **OK** to move around.

Tip #3 - Clothing & outfits

Worn-out blue jeans are very popular. They look great outdoors and are comfortable for the model.

Clothing: Bring your favorite skirt, pants and several tops. Solid colors usually work best. Earthy colors (brown, green) look really good outside.

Leather jackets can be worn or thrown across your shoulder for a more casual look.

#4 - Be Different.

If you use the same photographer that everyone else does, you'll probably have similar pictures. Try finding a photographer that will compliment your tastes.

Be sure that your photographer will spend enough time with you to get the great portraits you deserve.

Tip #5 - Jewelry & Accessories

Earrings, necklaces, bracelets, hats and other clothing accessories are great to have along.

They can be mixed with every outfit, giving some really unique pictures.

Don't forget to bring your school jacket or sports items along

#6 Have Fun!

You'll get a chance to use some of your own ideas during your senior photo session. Ask, don't be afraid to make suggestions.

You can also make a small scrapbook of other senior ideas you like and try to have your photographer re-create it.
